DIPLOMATIC NOTE

No. 202

The Embassy of the United States of America presents it compliments to the Ministry of Foreign Affairs of the Islamic Transitional Government of Afghanistan, and has the honor to refer to discussions between representatives of our two governments regarding issues related to United States military and civilian personnel of the United States Department of Defense who may be present in Afghanistan in connection with cooperative efforts in response to terrorism, humanitarian and civic assistance, military training and exercises, and other activities.

The Embassy proposes, without prejudice to the conduct of ongoing military operations by the United States, that such personnel be accorded a status equivalent to that accorded to the administrative and technical staff of the Embassy of the United States of America under the Vienna Convention on Diplomatic Relations of April 18, 1961; that United States personnel be permitted to enter and exit Afghanistan with United States identification and with collective movement or individual travel orders; that Afghan authorities shall accept as valid, without a driving fee or test, driving licenses or permits issued by the appropriate United States authorities to United States personnel for the operation of vehicles; and that such personnel be authorized to wear uniforms while performing official duties and to carry weapons when their orders call for it.
The Embassy further proposes that vehicles and aircraft owned or operated by or for the United States armed forces shall not be subject to the payment of landing, navigation, over flight or parking charges or overland transit fees or tolls while in Afghanistan; however, the United States armed forces shall pay reasonable charges for services requested and received. Aircraft and vehicles of the United States shall be free of inspections.

The Government of the United States of America, its military and civilian personnel, contractors and contractor personnel shall not be liable to pay any tax or similar charge assessed within Afghanistan.

The Government of the United States of America, its military and civilian personnel, contractors and contractor personnel may import into, export out of, and use in the Republic of Afghanistan any personal property, equipment, supplies, materials, technology, training or services required to implement this agreement. Such importation, exportation and use shall be exempt from any inspection, license, other restrictions, customs duties, taxes or any other charges assessed within Afghanistan. The governments of the United States of America and Afghanistan shall cooperate in taking such steps as shall be necessary to ensure the security of United States personnel and property in Afghanistan.

In the event that the government of the United States of America awards contracts for the acquisition of articles and services, including construction, such contracts shall be awarded in accordance with the laws and regulations of the Government of the United States of America. Acquisition of articles and services in the republic of Afghanistan by or on behalf of the Government of the United States of America in implementing this agreement shall not be subject to any taxes, customs duties or similar charges in Afghanistan.
The Government of Afghanistan recognizes the particular importance of disciplinary control by United States military authorities over United States personnel and, therefore, Afghanistan authorizes the United States Government to exercise criminal jurisdiction over United States personnel. The Government of Afghanistan and the Government of the United States of America confirm that such personnel may not be surrendered to, or otherwise transferred to, the custody of an international tribunal or any other entity or state without the express consent of the Government of the United States.

The Government of Afghanistan recognizes that it shall be necessary for United States personnel and systems to use the radio spectrum. The United States Government shall be allowed to operate its own telecommunication systems (as telecommunication is defined in the 1992 Constitution of the International Telecommunication Union). This shall include the right to utilize such means and services as required to assure full ability to operate telecommunication systems, and the right to use all necessary radio spectrum for this purpose. Use of radio spectrum shall be free of cost.

Finally, the Embassy proposes that, other than contractual claims, the parties waive any and all claims against each other for damage to, or loss or destruction of, property owned by each party, or death or injury to any military or civilian personnel of the armed forces of either party, arising out of activities in Afghanistan under this agreement. Claims by third parties arising out of the acts or omissions of any United States personnel may, at the discretion of the United States Government, be dealt with and settled by the United States Government in accordance with United States law.
If the foregoing is acceptable to the Government of Afghanistan, the Embassy proposes that this note, together with the Ministry's reply to that effect, shall constitute an agreement between the two governments which shall enter into force on the date of the Ministry's reply.

The Embassy of the United States of America avails itself of this opportunity to renew to the Ministry of Foreign Affairs of the Transitional Islamic Government of Afghanistan the assurances of its highest consideration.
